OIL AND GAS DEVELOPMENT OF TRI-STATE

Latest Reports of Operations in West Virginia, Pennsylvania and Ohio.

In a general way development work in the eastern fields does not differ much from day to day. Most of the wells completed do not attract attention for the reason that they are located in old territory. The discovery of some strictly new producing territory would arouse new interest and operators get busy developing it. The way the wells on Dent's run, Mannington district, Marion county, are holding up is something of a surprise and it is to be regretted that there is not more of that kind of territory available. The Delmar Oil Company's No. 24 on the John L. Hays farm is producing 720 barrels. Hickman and Huffman's No. 3, Alfred Kendall, 517 barrels, F. W. Bartlett's, Z. E. Batson 380 barrels and the South Penn Oil Company's No. 2, Howard Batson, 210 barrels. The Clayton Oil Company succeeded in exploding the shot in its No. 1 on the W. Z. Hays farm and it produced 100 barrels the first twenty-four hours. There are twelve or more wells starting in the pool.

Shallow Sand Completions. In McKim district, Pleasant county, the Little Oil Company has completed No. 9 on the A. J. Cunningham farm and it shows for a five barrel pumper in the Cow Run sand. In Union district, the Engle Run Oil Company drilled No. 13 on the Allen Holden farm through the Cow Run sand and it

FOR MOVING—Call our motor truck for household moving. Piano moving a specialty. UNION TRANSFER Bell 1358 Home 494

KING GEORGE'S SON WILL ENTER NAVY

Prince George.

Prince George, the youngest son of King George of England, has turned his fourteenth year and he has been selected to represent his royal family in his majesty's navy.

In good for four barrels a day. In the same district, the Shanty Oil and Gas Company's No. 6 on the Sarah Jane Barnhart farm is a very light pumper in the same formation.

In the Burning Springs district, Wirt county, the South Penn Oil Company completed No. 15 on the A. B. Wilson farm and has a ten barrel pumper in the Salt sand. In Cove district, Doddridge county, the Carter Oil Company has now drilled its No. 3 on the Connelly heirs' farm through the Gordon sand and it shows for a five barrel pumper.

On the south fork of Hughes river, Murphy district, Ritchie county, the Equality Oil Company drilled No. 15 on the J. F. Lamp farm through the Big Injun sand and found it barren. In the same district, the Hope Natural Gas Company has rigs completed for tests on the S. H. Westfall and M. E. Westfall farms. The same company is due in the sand at No. 6 on the M. F. Parker farm. In Clay district, the Imperial Oil and Gas Products Company is starting a test on the Moore farm. The same company is down 1,000 feet at a test on the Wood heirs' farm and fishing for a string of tools.

Southeastern Ohio. In the shallow sand territory in southeastern Ohio, located near Waters Station, Monroe township, Muskingum county, the Bell Oil and Gas Company drilled No. 6 on the William and Nancy Walker farm through the Berea grit. It is a very light pumper in that formation. In the Cow Run district, Lawrence township, Washington county, Needs and Patterson completed No. 7 on the Lucretia Dye farm and it is a very light pumper in the first Cow Run sand. Near Harrietsville, Jefferson township, Noble county, the Rado Oil and Gas Company is drilling No. 15 on the Lena Crum farm.

Deep Sand Wells Light. In the southwest quarter of section 19, Green township, Hocking county, the Preston Oil Company drilled a test on the John Wyskiver farm through the Clinton sand at a depth of 3,049 feet and is showing for a light pumper. This location is one-half mile east of production on the C. and D. M. Fling farm. In the Union Furnace district, Starr township, the Union Furnace Oil Company completed a No. 10 on the Ohio state school lands and it is good for twenty barrels a day in the Clinton sand. The Preston Oil Company has rigs completed for Nov. 15 and 16 on the Eliza Stiers farm and drilling No. 17 on the same estate.

Southwest Pennsylvania. Near Dunn's station, Morris township, Washington county, the Orco Oil Company's No. 2 on the Dunn heirs' farm, located 700 feet northwest of the same company's No. 3 on the J. R. Watson farm, has been drilled ten feet into the Gantz sand and the hole has filled up 2,000 feet with fluid. From the present showing, unless another pay is encountered, it will be good for eight or ten barrels a day.

Northeast of the Fifth sand development, in Indiana township, Allegheny county, Kocher Brothers have drilled their test on the Shortz farm into the top of the fifth sand and has shut down on account of a lack of water. In the same district the Crescent Oil Company has started to drill a second test on the Samuel Gogner farm.
